The screenshot shows the 'New / Select Database Connection' dialog box in SQL Developer. The dialog is titled 'New / Select Database Connection' and has a close button in the top right corner. The main area contains several fields and options:

- Connect...** buttons: Two buttons labeled 'Connect...' are visible on the left side.
- Connection Name:** A text field containing 'server'.
- Username:** A text field containing 'letra a + NUSP'.
- Password:** An empty text field.
- Save Password:** An unchecked checkbox.
- Database Type:** A set of buttons for 'Oracle', 'Access', 'MySQL', and 'SQLServer'. 'Oracle' is selected.
- Role:** A dropdown menu showing 'default'.
- Connection Type:** Radio buttons for 'Basic' (selected), 'TNS', and 'Advanced'.
- Hostname:** A text field containing '192.168.183.2'.
- Port:** A text field containing '1521'.
- SID:** A radio button selected, with a text field containing 'orcl'.
- Service name:** An unselected radio button with an empty text field.
- Status:** A label 'Status:' is located at the bottom left.
- Buttons:** At the bottom, there are six buttons: 'Ajuda', 'Save', 'Clear', 'Test', 'Connect', and 'Cancelar'.
