

# Criando Projetos no Dev-C++

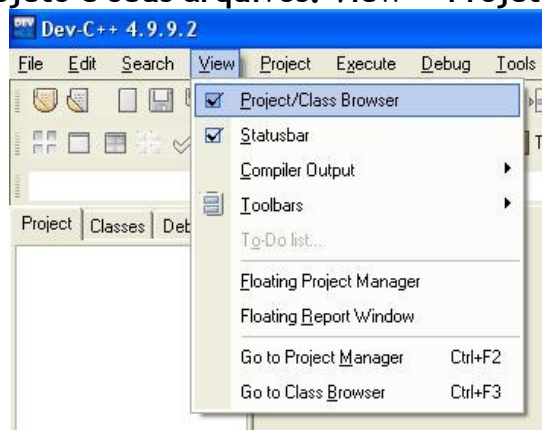

1 - File → New → Project

Escolha “Console Application”, dê um nome ao arquivo. Escolha a opção “C Project”.

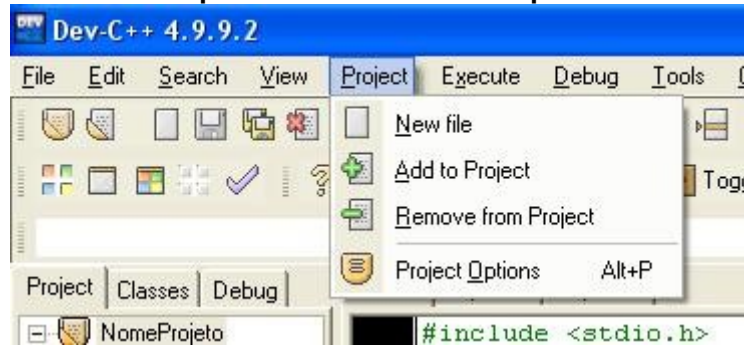

Visualize o Projeto e seus arquivos: View → Project/Class Browser

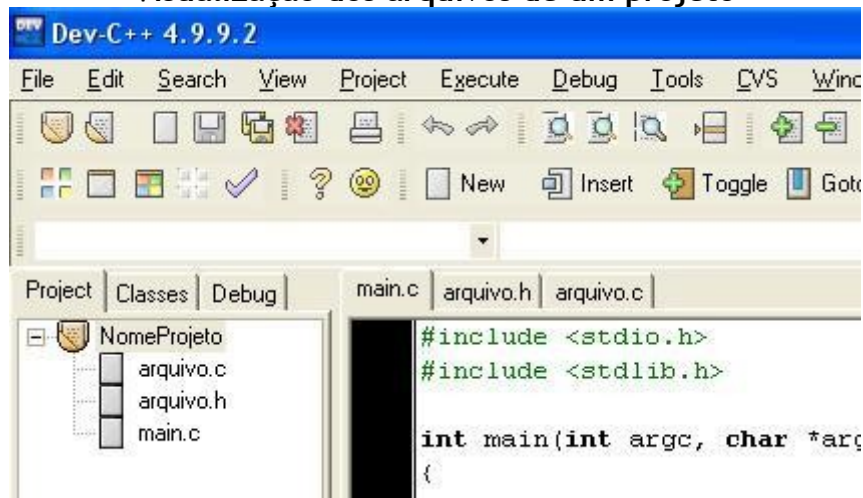

## 2 - Project → New file || Project → Add to Project

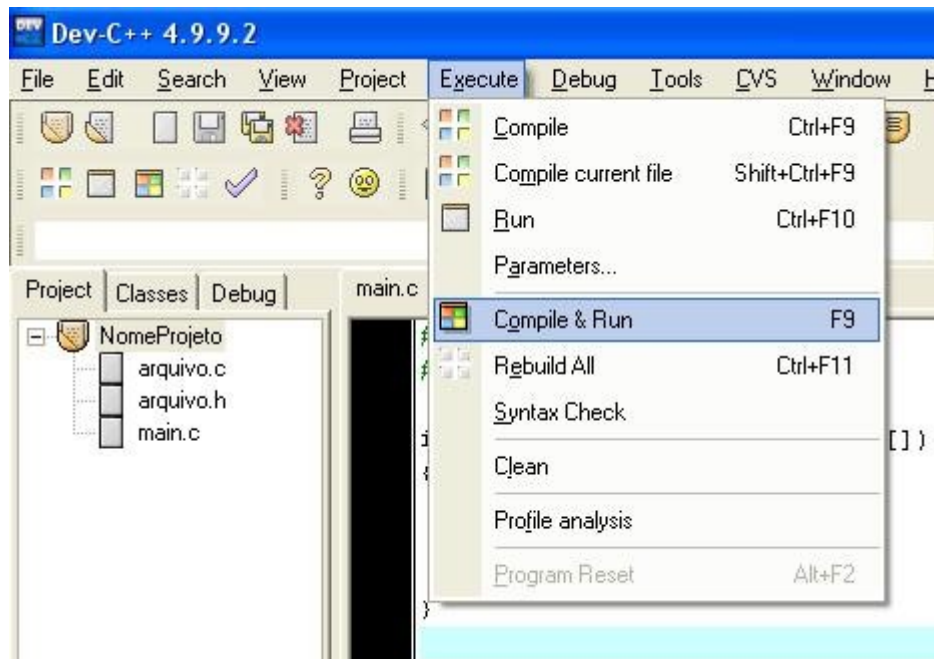

Criar novos arquivos ou adicionar arquivos existentes

Visualização dos arquivos de um projeto

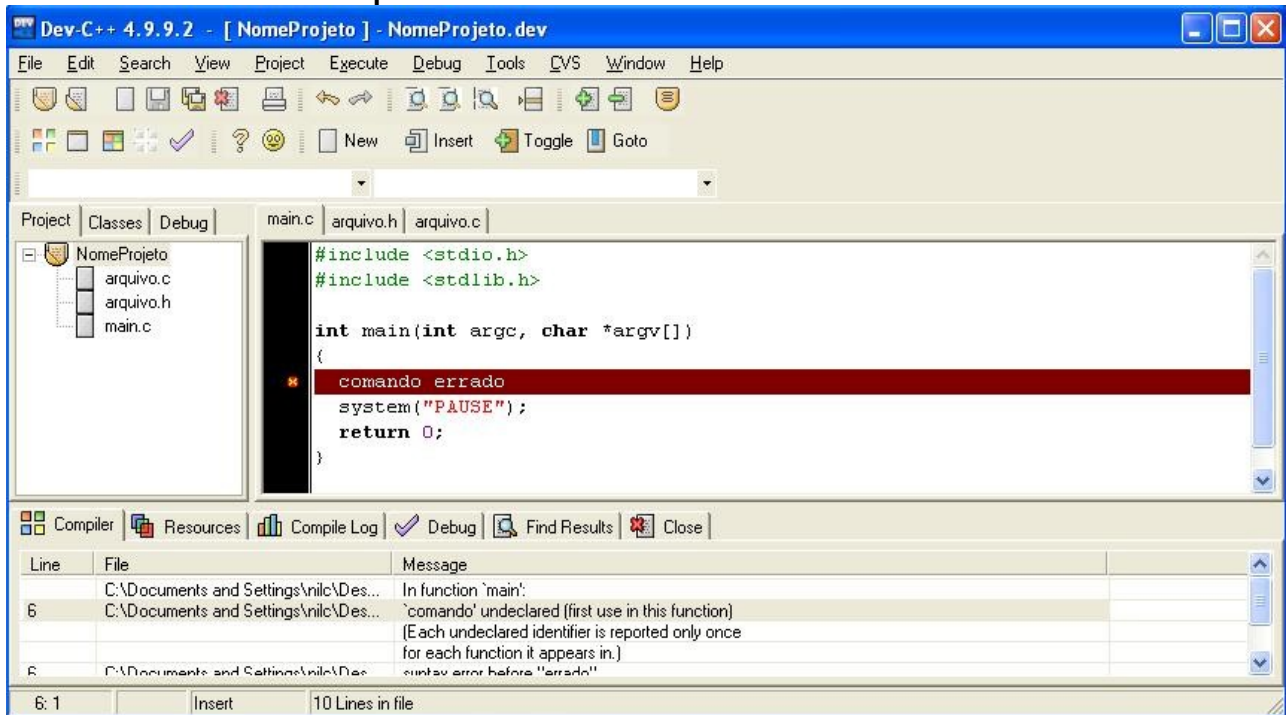

## 3 - Execute → Compile & Run (F9)

## 4 - Verificando erros

Duplo clique sobre o erro (na parte inferior do ambiente)  
para ser direcionado ao local do erro

Quando tudo estiver certo
